Confirmation No.: 8117

Examiner: Pedro J. CUEVAS

Filed: January 12, 2001

For: ARMATURE FOR DYNAMO-ELECTRIC MACHINE AND METHOD FOR  
MANUFACTURING THE SAME

AMENDMENT

Commissioner for Patents  
Washington, D.C. 20231

Sir:

In response to the Office Action of April 5, 2002, Applicants hereby elect for present prosecution Group II, claims 10-16. Election is made without traverse; Applicants reserve the right to file an appropriate divisional application at an appropriate time.

IN THE CLAIMS:

Please enter the following amended claims:

10. An armature for a dynamo-electric machine, the armature comprising:  
an armature core provided with a plurality of slots extending in an axial direction and  
disposed alongside each other in a circumferential direction;  
an armature winding inserted in the slots so as to be mounted on the armature core; and  
an insulator mounted in each of the slots for insulating between the armature core and the  
armature winding,  
wherein the insulator is disposed between an inner face of each slot and the armature  
winding, and first creases are formed on side portions of each insulator so as to extend in a  
lengthwise direction of the slot at a slot-opening end of the side portions, the first creases being
